PROFESSIONAL SUMMARY

Java Full Stack Developer with 7+ months of professional experience at Infosys, working with Java, REST APIs, SQL, and backend application development. Hands-on experience with Spring Boot, Spring MVC, JPA/Hibernate, Spring Security, JWT, Microservices, and PostgreSQL. Familiar with React, JavaScript, Git, Maven, Docker, JUnit, and Mockito.

TECHNICAL SKILLS

Languages: Java 17, Core Java, OOP, Collections, Exception Handling, JavaScript
Frontend: React, HTML, CSS, JavaScript
Spring: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security, JWT
Backend: REST APIs, Microservices, DTO, Dependency Injection, Global Exception Handling, API Integration
Database: PostgreSQL, MySQL, Oracle, SQL, Joins, JPQL
Testing: JUnit 5, Mockito, Rest Assured, TestNG, Cucumber
Tools: Maven, Git, GitHub, Docker, Jenkins, Postman

PROFESSIONAL EXPERIENCE

Java Full Stack Developer — Infosys Limited **Sep 2025 – Apr 2026**
Bangalore, India

- Developed Java-based REST APIs for application workflows, authentication, and business requirements using Spring Boot.
- Integrated REST APIs with SQL databases and performed backend data validation for application workflows.
- Worked with Java, Maven, Git, Jenkins, and Agile/Scrum practices while collaborating with development teams.
- Troubleshot application issues and supported backend integration and application reliability.

PROJECTS

AI-Powered Healthcare Service Management Platform
Java 17 — Spring Boot — Spring MVC — JPA/Hibernate — Spring Security — JWT — PostgreSQL — Microservices — React — Spring AI — OpenAI API

- Designed a microservices-based healthcare platform using Spring Boot with Patient, Appointment, Notification, and AI Assistant services.
- Developed 15+ RESTful APIs for patient management, doctor management, appointment scheduling, authentication, and service-request processing.
- Implemented Spring Data JPA and Hibernate with PostgreSQL, including entity relationships, pagination, sorting, and custom JPQL queries.
- Implemented JWT-based authentication and role-based authorization using Spring Security.
- Integrated React frontend with Spring Boot REST APIs and Spring AI with OpenAI API for AI-assisted service processing.

REST API & Database Integration Framework
Java — Spring Boot — REST APIs — Rest Assured — SQL — TestNG — Cucumber — Maven

- Developed reusable REST API workflows for CRUD operations, authentication, request/response validation, and database transactions.
- Implemented data-driven API scenarios and SQL validation to verify consistency between REST API responses and backend records.

EDUCATION

B.E. — Electronics & Communication Engineering, (SLIET), Punjab **2021 – 2025**
CGPA: 8.16/10

12th — Gyan Bharti Senior Secondary School, Raniganj, Tekari **2018 – 2020**
Percentage: 69.4%

10th — R. D. Public School, Vikram Vihar, Tekari **2016 – 2018**
Percentage: 73.4%

CERTIFICATIONS

- Core Java Certified
